How I use ICT

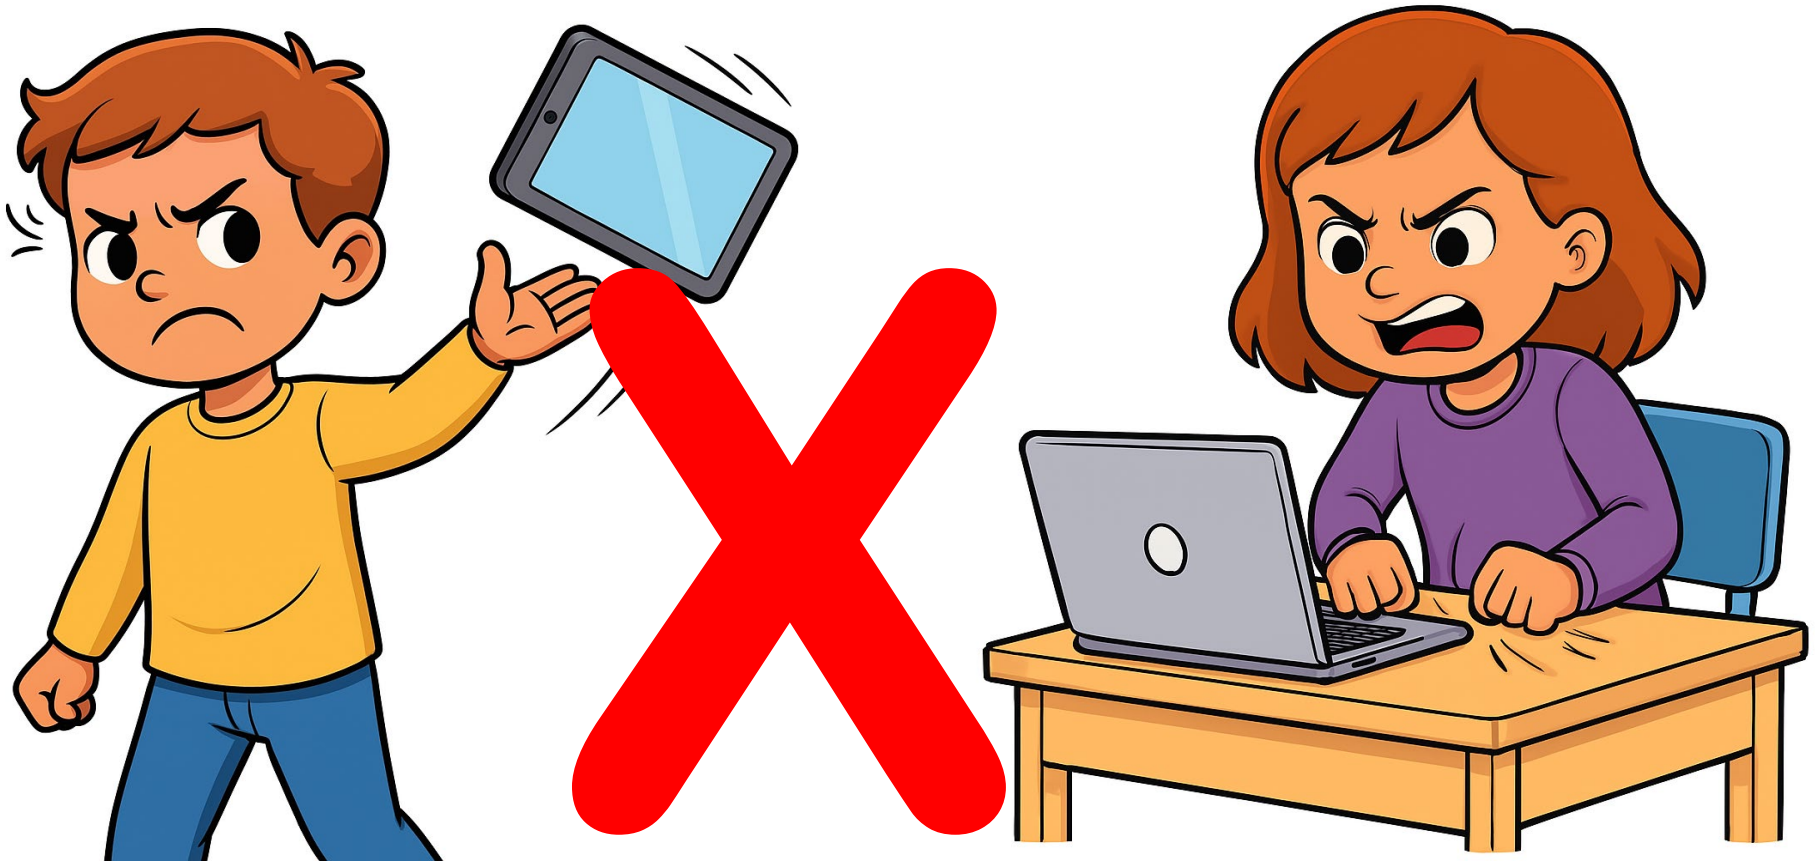
ICT Acceptable Use Student agreement – Infants/ Adjusted

Developed by Digital Innovation And Learning team.

Images created using Gen AI, April 2025

I will follow teacher instructions when using devices.

I will take care of devices and hold them with two hands when moving around.



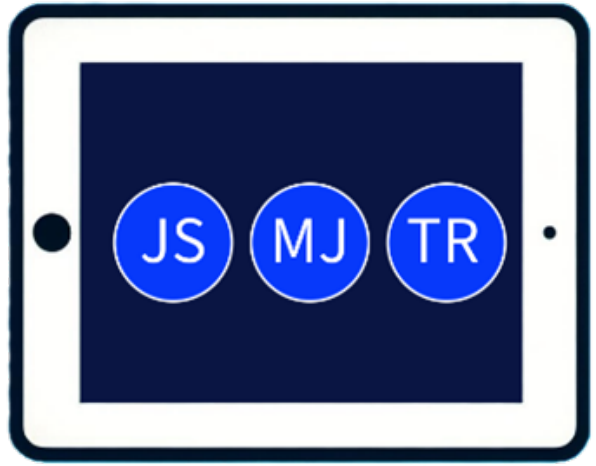
I will not throw, hit or deliberately damage devices.

If a device is broken or damaged, I will report it to a teacher straight away.

I will sit when using a device, unless the teacher gives different instructions for use.

I will only use my log in details to access a device and not share my password with others.

I will log off the device when I am finished using it.



If I am unsure about what to do or how to do something when using a device, I will ask an adult for help.

If I see something inappropriate, I will shut the laptop or press the lock/sleep button on the iPad and then go tell a teacher.

I will stop using the device when my teacher tells me it's time to finish.

If I break these rules, then the teacher will contact my parents and there may be consequences.
